Sex Male | Date of birth 05/07/1991 | Birth place: Castellammare Di Stabia (NA)

Nationality Italian

Working Biography

At the beginning of my career I was a **Siebel** developer included in the **Sky Germany Application Maintenance** team, for about 1 year with planned trips of 2 weeks out of 4 per month to support the client in the Bug-fixing of his processes. I then moved on to the **Development** team, where I dedicated myself to writing **PL / SQL** procedures to be used in synergy with **Bit2win on-premises**. Over time I then replaced some figures who abandoned us as systems engineers for the configuration of Tomcats and I also implemented several new **Java WebServices** through the Apache CXF framework that allows you to transform WSDL and XSD into Java code. Finally, in the last year I have also been dedicating myself to the implementation of Bit2win rules using the **XPATH** language and the **Bit2win Archetypes**.

Given the seniority on the customer, in recent years and particularly in the last two I have also always dealt with managing UAT calls with the customer; call for the definition of requirements, and to give constant support to Production. I manage a small team in SkyDe and I provide the work progress to my Managers. I have dealt with projects in **Waterfall** and **Agile** mode providing the customer with Sprint proposals that meet their needs.

Education

October 2010 - 24 July 2015

Bachelor's Degree in Computer Science

Graduated from the University of Tor Vergata, Computer Sciences with a score of 92/110.

2005 - 2010

PNI Scientific High School

Edoardo Amaldi High School, Via Domenico Parasacchi, Rome.

Professional experiences

1 October 2020 – Today

Expert Service Consultant - Sky Deutschland

Description: We migrate and implement business processes within Salesforce Bit2win.

I follow all the design phases: Requirement analysis, open points writing, estimate and offer, implementation, UAT support and deployment.

In terms of development I deal with designing the solution, also with other suppliers, and implementing it on technologies such as mainly PL / SQL, Java and Bit2win.

Technologies: Siebel, Siebel Tool, Oracle SQL Developer, SQL, XML, eScript, Salesforce, Bit2win, Apex, Kafka, Java

1 January 2017 – 1 October 2020

**IT Consultant - Sky Deutschland***Role: Application Development Senior Analyst*Description: We migrate and implement business processes within Salesforce Bit2win.

I follow all the design phases: Requirement analysis, open points writing, estimate and offer, implementation, UAT support and deployment.

In terms of development I deal with designing the solution, also with other suppliers, and implementing it on technologies such as mainly PL / SQL, Java and Bit2win.

Tecnologies: Siebel, Siebel Tool, Oracle SQL Developer, SQL, XML, eScript, Salesforce, Bit2win, Apex, Kafka, Java

31 December 2016

9 December 2015
